PART IV SPECIAL REGULATIONS

D - STRATFORD REGION, CHARLOTTETOWN REGION, CORNWALL REGION AND SUMMERSIDE REGION SPECIAL PLANNING AREAS

63. (1) The July 9, 1994 designation of the following areas as special planning areas is continued:
- (a) the area adjacent to the Town of Stratford as shown in Appendix A, Map No. 8;
 - (b) the area adjacent to the City of Charlottetown as shown in Appendix A, Map No. 9;
 - (c) the area adjacent to the Town of Cornwall as shown in Appendix A, Map No. 10;
 - (d) the area adjacent to the City of Summerside as shown in Appendix A, Map No. 11.
- (2) In addition to all other relevant conditions and requirements contained in these regulations, the provisions of this section apply within the Stratford Region Special Planning Area, the Charlottetown Area Special Planning Area, the Cornwall Region Special Planning Area and the Summerside Region Special Planning Area.
- (3) The specific objectives for development within the Stratford Region Special Planning Area, the Charlottetown Region Special Planning Area, the Cornwall Region Special Planning Area, and the Summerside Region Special Planning Area are
- (a) to minimize the extent to which unserved residential, commercial and industrial development may occur;
 - (b) to sustain the rural community by limiting future urban or suburban residential development and non-resource commercial and industrial development in order to minimize the loss of primary industry lands to non-resource land uses; and
 - (c) to minimize the potential for conflicts between resource uses and urban residential, commercial and industrial uses.
- (3.1) In this section, “existing parcel” means a parcel of land that existed on July 9, 1994.
- (4) An existing parcel of land may, on approval, be subdivided into not more than one lot for each of the following purposes:
- (a) residential use, which may include the following:
 - (i) single family dwelling use,

- (ii) duplex dwelling use,
- (iii) summer cottage use, or
- (iv) multiple unit dwelling use or mobile home park where

(A) central sewerage service provided by a municipal sewerage utility or central water service provided by a municipal water utility is available or both are available; and

(B) an irrevocable agreement has been signed between the applicant and the municipal sewerage or water utility to provide central sewerage service or central water service or both if available to the lot or mobile home park;

- (b) recreational use;
- (c) resource-commercial or resource-industrial use, where the lot is intended for agricultural, forestry or fisheries purposes;
- (d) non-resource-commercial or non-resource-industrial use, where the lot is intended for other than agricultural, forestry or fisheries purposes, where the lot has an area no greater than one acre;
- (e) institutional use, where the lot has an area no greater than three acres; (e.1) for use as a cemetery;
- (f) rural tourism use, where the lot has an area no greater than three acres.

(5) Notwithstanding clause (4)(a), where the intended residential use is single family dwelling use, subdivisions of more than one lot per existing parcel of land, may be approved in the following situations:

- (a) where the requirements of clause (4)(a) are insufficient to permit the owner of an existing parcel to provide lots for the children of that owner, and
 - (i) the owner files, with an application to subdivide the existing parcel, a statutory declaration that he or she will convey the lots only to his or her children and only for the use as a single family dwelling,
 - (ii) no child of the owner will receive more than one lot,
 - (iii) the total number of lots that may be subdivided from all of the existing parcels owned by an owner pursuant to this subsection is equal to or less than the number of children of that owner at the time of the application, and
 - (iv) revoked by EC166/08)
 - (v) a lot intended for a child of the owner of an existing parcel of land shall not be given final approval and shall not be conveyed until the child has received a development permit approval for the lot and has submitted a statutory declaration declaring that the child intends to build a residence on the lot for the child's own use;

(b) where one lot is required in addition to those permitted by clause (a) or (4)(a) in order to accommodate an existing farm dwelling, and the dwelling on the lot is to be served by the existing farm dwelling access;

(c) where central sewerage service provided by a municipal sewerage utility or central water service provided by a municipal water utility is available or both are available, and an irrevocable agreement has been signed between the applicant and the municipal sewerage or water utility to provide central sewerage service or central water service or both if available to all lots prior to the conveyance of any lot from the approved subdivision.

(5.01) In subsection (5.02), “remnant parcel” means, in respect of an existing parcel, the portion of the existing parcel that has not been approved for subdivision into one or more lots under subsection (4), (5) or (5.1).

(5.02) An approval to subdivide a remnant parcel may be granted, as if the remnant parcel were an existing parcel, under

- (a) any clause of subsection (4) or (5); or
- b) subsection (5.1),

if no previous approval to subdivide has been granted under such a clause of subsection (4) or (5), or under subsection (5.1), as the case may be, in respect of any land forming part of the existing parcel.

(5.1) Notwithstanding clause 4(c), where the intended use is resource commercial or resource-industrial within a municipality that has an official plan, subdivisions of more than one lot per parcel of land may be approved where an irrevocable agreement has been signed between the applicant and a municipal sewerage or water utility to provide central sewerage or central water service, or both if available, to all lots prior to the conveyance of any lot from the approved subdivision.

(6) Notwithstanding clause (4)(d), in the case of a Slemon Park subdivision which has more than one lot, and whose lots have areas greater than one acre, the subdivision may be approved for industrial use for those lands owned by the Slemon Park Corporation on July 9, 1994, where an irrevocable agreement has been signed between the Slemon Park Corporation and the applicant to provide central sewerage and water service to all lots prior to conveyance of any lot and commencement of the development.

(7) Pursuant to the uses and limitations contained in subsection (4) or (5.02), development permits may be approved for

- (a) existing parcels of land;
- (b) subdivisions approved prior to July 9, 1994;

- (c) subdivisions approved pursuant to subsections (4), (5) and (5.1) and remnant parcels resulting from such subdivisions;
- (d) subdivisions approved pursuant to clause (5)(c) and subsection (5.1), where an irrevocable agreement has been signed between the applicant and the municipal sewerage utility, municipal water utility or both of them to provide central sewerage service, central water service, or both of them, to the approved subdivision prior to commencement of construction or location of dwellings or buildings on any of the lots;
- (e) subdivisions approved for lands owned by the Slemon Park Corporation pursuant to subsection (6), where an irrevocable agreement has been signed between the Slemon Park Corporation and the applicant to provide central sewerage and water service to the approved subdivision prior to commencement of construction or location of dwellings or buildings on any of the lots.

(8) Where a lot has been approved pursuant to clause (5)(b) to accommodate an existing farm dwelling, no development permit shall be issued for a dwelling on the remainder of the subdivided parcel.

(9) Subdivisions or development permits approved under subsections (4), (5), (5.1) and (7) shall, in areas where a municipal official plan is in place, also be subject to all applicable land use and development regulations made pursuant to the municipal official plan.

(10) A municipality with an official plan may, as an alternative to amending its official plan and bylaws to conform with subsections (2) to (9), otherwise amend its official plan and bylaws where the amendments comply with subsection 7(2) of the Act and

- (a) are consistent with the objectives set out in subsection (3);
- (b) satisfy the minimum requirements applicable to official plans pursuant to section 7 of the Act;
- (c) revoked by EC421/09;
- (d) with the exception of the community of Miscouche, limit the number of lots in a subdivision for residential use to no more than five lots per existing parcel of land, unless
 - (i) central water service, central sewerage service, or both of them, by a municipal water utility, municipal sewerage utility, or both of them, is available, and
 - (ii) an irrevocable agreement has been signed between the applicant and the municipal water utility, municipal sewerage utility, or both of them, to provide central water service, central sewerage service, or both of them, to all lots prior to the conveyance of any lot from the approved subdivision; and
- (e) require the municipality to report to the Minister, on or before April 30 of each year, the number of lots approved and development permits issued in the previous fiscal year, by type of intended use. (EC693/00; 702/04; 116/05; 212/05; 166/08; 421/09; 670/13)
