8. REPORTS FROM STANDING AND AD HOC COMMITTEES

i. Environment and Community Living

a. Watershed Update – The Cornwall and Area Watershed Group (CAWG) September Meeting was cancelled. CAWG had previously sent letters to the Province and the City regarding their concerns about Coles Creek but did not receive a response. CBC aired an interview with Dr. Van den Heuval regarding Coles Creek today.

Miltonvale Park sent an email to City asking for support for planting trees in the headwaters for Coles Creek. CAWG planted 84 trees in the headwaters on the east side of the pond near MacKenzie Road and the Winsloe Road as suggested by Dr. Van den Heuval. CAWG estimates 200 more trees should be planted with an approximate cost of $3500.00- $4000.00. Charlottetown responded to the initial email sharing that to date 13,649 native trees and shrubs have been planted on the 206-acre Miltonvale well field property. They also asked it the headwaters were on city property, which they are not.

The funding will also be used to supply seniors with PPE, emergency supplies, as well as information sessions on disease prevention, use of PPE, “Stories Fill Me Up” and meal deliveries, and transportation to important appointments, tablets for “unconnected” seniors, and to produce online

They want to replace it with a smaller "Capreit" only board and suggested the municipal signboard be moved to the side of the road; however, this is not a viable option. There may not be enough space by the mailboxes at the end of Heather Drive, although it might be able to be re-located to the mailboxes on the Royalty Road at the community boundary.
